OBJECTIVE

Seeking a Software Developer co-op for Fall 2026 where I can build on my full-stack experience, explore cloud infrastructure, and work at the intersection of practical software and emerging AI — ideally somewhere I can contribute fast and learn faster.

EDUCATION

Seneca Polytechnic

Advanced Diploma in Computer Programming & Analysis

Toronto, ON
Sep 2024 – Present

- GPA: 4.0 / 4.0 — President's Honor List, 4 consecutive semesters
- Relevant coursework: Data Structures & Algorithms, Web Programming, Database Design, Object-Oriented Programming

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, Java*

Web Development: React, Next.js, Node.js, Express.js, HTML5, CSS3, REST APIs

Database Management: MongoDB, PostgreSQL, Oracle SQL

Tools: Git, VS Code, IntelliJ IDEA, Cursor IDE, Visual Paradigm, Docker*

Platforms: Vercel, GitHub, AWS*

*Currently learning

PROJECTS

SweetScale — AI Dessert Recommendation Tool

React, Node.js, Gemini API

2nd Place — AI Design Sprint

github.com/lamritha/sweetscale

- Built an AI-powered tool for dessert businesses that generates tiered recommendation plans based on budget, guest count, and event theme.
- Won 2nd place out of 12 teams in a 30-minute AI design sprint, delivering a fully functional prototype.

Book Search App

React, Node.js, Express.js, MongoDB

github.com/lamritha/fullstack-book-search-app

- Integrated the Open Library API to let users search by title, author, subject, and language.
- Implemented user authentication (login/registration) and a personal favourites system to save and manage books.

Olympic Data Processing

Python

github.com/lamritha/olympic-dataset-processing-system

- Cleaned and standardized athlete and competition datasets with inconsistent date formats across multiple files.
- Implemented caching to noticeably reduce processing time on repeated large dataset runs.

Project Management App

Node.js, Express.js, EJS, PostgreSQL

github.com/lamritha/fullstack-project-management-app

- Developed full CRUD functionality with session-based authentication and role-based authorization, supporting structured team workflows.

EXPERIENCE

Math Tutor

Tutorcraft — Part-Time, On-Call

Toronto, ON
Dec 2024 – Present

- Tutor students across multiple grade levels in mathematics, breaking down complex concepts into clear, workable steps.
- Built strong communication and feedback skills by adapting explanations and teaching methods on the fly based on each student's gaps.

Physics Teacher

Belvoir College International — Part-Time

Sri Lanka
Nov 2023 – Jul 2024

- Delivered structured lessons in physics to Grade 11 and 12 students, designed assessments, and tracked progress over time.
- Built lesson plans from scratch and learned quickly that clear structure and anticipating confusion matters as much in a classroom as in documentation.

Administrative Assistant

Hiitech International

Sri Lanka
Jul 2023 – Nov 2023

- Managed office operations including data entry, record maintenance, scheduling, and handling email and phone inquiries in a professional, timely manner.

AWARDS & ACHIEVEMENTS

- Seneca Polytechnic President's Honor List — 4 consecutive semesters (4.0 GPA)
- Further Mathematics Highest Mark in Sri Lanka — Edexcel IAL
- Edexcel IAL & IGCSE High Achiever Awards

INTERESTS & ACTIVITIES

- Seneca Traveller and adventure-seeker — ziplining is a favourite.
- Florist and baking assistant at my sister's home bakery business.
- Reads and journals regularly.
